Subject: Osprey nest platform

Hi, Chris--

I want to let you know that I have finished the construction of the osprey nest platform and am now just waiting for a cold spell (will we get one this winter?) so that I can get out into the swampy area to see about digging a hole for the post. If you are ever in this area in the next couple of weeks, I would be grateful if you would take a moment to stop by and see if you have any suggestions for improving the platform before we have to move it.

Thanks again to you and Greg for your invaluable help in harvesting and moving the cedar post.

Best,

Bill

Thank you Class of 1964!
